JEFF. DAVIS—NEW OWNERS OF THE APPROACHING END.

It is not to be wondered at that so many people should have doubted the authenticity of the report of Jefferson Davis' extraordinary speech at Macon, published in the *Press* of Friday last, in advance of our confederacy. It certainly had the air of a lie. Davis, up to the present time, has acted a part before the world very different from the character which belonged to him before the war, or from that manifested by his public actions since.

It was understood, two former years, when he was here, that he was a man of the South from Mississippi, that he was a man of iron, of courage, of irritable temper, and unshaken ambition, but one who, in general, could cover up the most diabolical schemes or the most intense hatred with the manners of a gentleman.

The press of the South, and administration of the rebellion has been the best, if not the *sic et体制*.

No body appears to have been killed by the round shot, or all the injury was inflicted directly or indirectly by the shells. The captain of the ship, who was a good man, from his form, and his manners, which produced little effect upon his subjects, had a 20-pounder placed forward. The victory was gained by these three pieces alone.

RELATIVE DESTRUCTIVENESS OF SHOT AND SHELL.

M. DuFour, a surgeon of the French navy, has published an interesting account of the wounded seamen who were brought to the naval hospital at Cherbourg after the engagement between the *Ambrosia* and the *Kearsarge*. One of the conclusions suggested by reading M. DuFour's statement is that the greater number of wounds were caused by the canister shot of shell, but by spherical shot. It may be observed by the reader that, since the new shells are cause of greater destruction of human life than in much greater than when round shot were used. It has been learned from the same source that "it is an error to suppose that the explosion of gunpowder projects the shell from the gun, as it is directed by the increasing caliber of the gun; as in order to move them, it follows that one shot will do more damage than striking a projectile which has the weight of the shell."

A shell fired from the *Kearsarge*, falling among nineteen men who were serving the guns of the *Ambrosia*, killed or wounded fifteen. The *Ambrosia* fired altogether 270 shots, however, there were but 103 shots fired by the *Kearsarge*. Nobody appears to have been killed by the round shot, or all the injury was inflicted directly or indirectly by the shells. The captain of the ship, who was a good man, from his form, and his manners, which produced little effect upon his subjects, had a 20-pounder placed forward. The victory was gained by these three pieces alone.

BY THE OCTOBER ELECTIONS.

From the *Telegraph*.

Ohio yesterday reiterated her devotion to the cause of freedom and the Union by a rousing majority. Our returns as yet include the soldiers' vote in two or three hospitals only, but the home vote alone shows a large Union majority, which will of course be largely increased by the returns from the armies in the field. Even without this, the Union majority is large, and the gain of Representatives in Congress decided. Messrs. Hayes and Eggleston (Union) succeeded Messrs. Long and Pendleton (Copper) in the two Cincinnati districts, while Samuel Snellbanger (Union) has beaten S. S. Cox (Copper) in the Columbus district by 1000 majority on the home vote, and less than half the total vote. The result is almost a certainty. The day is fast approaching when there will be no one left in the ranks to save the failing fortunes of the Confederacy, and its guilty leader will feel the retribution he now so gloomily foresees.
